

Breach Notification & Protection Services

Designed for your organization's unique risks

A photograph showing a diverse group of people in a professional setting, likely a meeting or presentation. A man in the foreground is smiling and gesturing, while others are visible in the background, some looking at a whiteboard with handwritten notes.

In today's world of mounting cyber attacks and data breaches, your organization's employees, customers, and members are increasingly vulnerable to all forms of identity theft and privacy risks. IDX™'s Breach Notification & Protection Solutions offer the most comprehensive yet flexible products and services in the market to address the unique needs of your organization.

Comprehensive Notification & Protection Solutions

Based on our proven, time-tested approach, we offer a complete array of products and services to help you achieve a successful outcome.

There is more at stake than just money. Choose your breach partner wisely in order to best protect your customers, employees, members and ultimately your business.

IDX's Breach Notification & Protection Solutions are designed to provide the most consultative, tailored and flexible solutions for your organization's unique needs and industry environment. Our award-winning capabilities enable your incident response team to select precisely the products and services that you need to respond to any size or type of incident.

Partner with IDX — your trusted, award-winning provider of market leading response services and innovative, patented identity monitoring and protection products.

Industry-Leading Response Services

The most cost-efficient and effective notification and protection solutions for the impacted population requires careful thought and planning between all members of your response team. With the insight and guidance from trusted experts with over a decade of experience in listening, understanding and tailoring services to your organization's particular needs, we understand each incident is unique.

We offer full-service, end-to-end management to help your organization respond to a data breach in coordination with your privacy counsel and your response team. Our award-winning consultation and guidance will help you make informed choices about the products and services that your organization needs, avoiding those that it does not, and ultimately maximizing your breach response investment.

Notification & Protection Services

Whether the impacted population is 10 million or just a few individuals, our services can be built to fit your needs. From digital and physical notifications, to call center services, to breach websites, to identity and privacy protection products – we have it all ready to quickly respond to any size cyber incident.

NOTIFICATION SERVICES

People affected by a breach need answers and advice. Our customized digital or mailing notifications and tracking help ensure the right notifications reach the right people. We will also work closely with your privacy attorney to ensure all legal requirements are incorporated.

ENROLLMENT WEBSITE

Our breach information and enrollment site will be configured to meet your unique needs and provide the individuals impacted by the breach access to information and protection at their fingertips.

CALL CENTER COMMUNICATIONS

Our live trained US-based call center agents help bring peace-of-mind to breach victims helping to alleviate concerns, answer questions and enroll affected individuals in our protection services. We support more than 200 languages and unique populations such as minors, deceased, and the disabled.

Our Reputation for Excellence

96%

of our data breach clients say they would **not only recommend us** to others but they would select **IDX to help them address future incident response needs.**

Manage more than

1,000

data breach incidents each year.

Trusted as an approved vendor by nearly all major cyber insurance carriers.

20+ years

IDX has provided exceptional breach services to our clients since 2003.

Full-Service Protection for the Impacted Population

With IDX, you can protect your employees, customers and members from the many types of identity theft including Medical, Insurance, Criminal, Child, Driver's License, Social Security, Synthetic, Financial, and Employment. Our solutions have you covered not only after an incident occurs, but also in anticipation of one.

Credit, Cyber and Identity Monitoring

CREDIT

The largest provider of identity protection services to the federal government, our IDX identity protection service provides single or tri-bureau credit monitoring – we give you the flexibility to make that decision based on your organization's needs.

CYBER

CyberScan™, our proprietary dark web technology scours 24/7 for stolen identities. It targets the illegal selling and trading of personal information and alerts your employees, customers and members, enabling them to take immediate steps to protect themselves.

IDENTITY

Our comprehensive identity monitoring service is an early-warning monitoring technology for detecting identity theft, monitoring activities such as changes of address, payday loans, court records and court bookings.

Fully-Managed Identity Recovery

If your employees, customers or members have fallen victim to any form of identity theft, our Identity Recovery Experts will help them restore their identities. We have a 100 percent success rate restoring affected individuals to pre-theft status.

REIMBURSEMENT INSURANCE

Our Breach Response includes up to \$1 million of insurance per individual, which reimburses victims for outside covered legal and professional services.

MEMBER SERVICES

Our Member Services team is fully accessible to your employees, customers and members, 11 hours per day Monday through Friday, and provides state of the art, patented and trademarked tools and services that assist them in proactively reducing their risk of identity theft.
