

Multi-National Breach Notifications & Protection

Localized breach response products and services to fit

In today's fast-paced global economy, more and more data breaches are occurring that expose the records of customers and employees residing outside of the United States. Multinational companies need a response that is localized for the impacted population. IDX's Multinational Breach Notification & Protection Solutions offer comprehensive combinations of products and services that can be tailored to your organization's unique needs.

What's included for the impacted population residing overseas:

BREACH SERVICES

- ✓ Multi-lingual call-center agents ready to help the impacted population
- ✓ Localized alerts and member dashboard
- ✓ Breach microsite and FAQs tailored to each data breach and language preference as selected by the impacted individual

IDENTITY PROTECTION

- ✓ Dark web monitoring
- ✓ Alert notifications when a new event is detected
- ✓ Social media monitoring
- ✓ Password Detective
- ✓ Crisis media planning workbook

Let IDX, the most experienced and largest data breach response company, be part of your incident response team.

Benefits of IDX

Multi-national companies need a proven response leader to serve on their team when the inevitable data breach occurs. Our response engagements are executed with market-leading and time-tested expertise. We can deploy our products and breach response services tailored to fit your unique needs, including to multi-national populations, in as little as 5 business days.

We offer full service end-to-end management when an incident occurs in coordination with your incident response team, including project management, notification, call center, website, and protection services for the impacted population.

The partner you can trust since 2003
